

3 Courses

Introduction to ASP.NET Core Framework

Data Management and Application Features

Security, Testing, and Deployment

01-Sep-2026

Muhammad Abdul Rehman

has successfully completed the online Professional Certificate

Microsoft Getting Started with ASP.NET Core

Learners who complete this program have demonstrated their ability to design, build, and secure modern web applications using ASP.NET Core. They have gained hands-on experience with data management, middleware, authentication, and deployment practices. Graduates can implement secure authentication and authorization workflows, develop robust APIs, integrate databases with Entity Framework Core, apply effective testing strategies, and deploy applications to cloud platforms like Microsoft Azure. This certificate validates practical, job-ready skills for professional ASP.NET Core development.
