PROFESSIONAL SUMMARY

Junior .NET Developer with 1 year of professional experience building Windows Forms ERP, POS and invoice management applications with C# and SQL Server, including RDLC reporting and client-specific customization. Also experienced in ASP.NET web development, with certifications and projects such as a Help Desk system and a Learning Management System. Certified in Generative AI Application Development (May 2026) and currently pursuing BS Computer Science. Seeking a .NET developer role to build practical business software and apply AI.

TECHNICAL SKILLS

Languages: C#, SQL, JavaScript, HTML, CSS

Desktop Development: Windows Forms (.NET Framework), RDLC Reports, ERP & POS Applications

Database: SQL Server, Database Design & Query Optimization

Web Development: ASP.NET, ASP.NET Core, Entity Framework Core, REST APIs, Role-Based Access Control (RBAC)

Tools & Other: Git & GitHub, Generative AI Applications

WORK EXPERIENCE

Junior .NET Developer | Delloweb International

1 year

- Developed and maintained Windows Forms applications for ERP and POS systems used in real business operations.
- Collaborated with business analysts to translate feature requirements into working modules.
- Designed and optimized SQL Server databases to support reliable data handling and faster queries.
- Built RDLC reports for invoices, data visualization and business intelligence.
- Debugged and resolved complex issues, improving application performance and stability.
- Implemented client-specific modifications and enhancements to meet individual business needs.

PROJECTS

Desktop Applications (Windows Forms)
